
Rural & Agri-Tourism

Application, Instructions, and Information.

Troup County
Community Development

PLEASE READ CAREFULLY BEFORE APPLYING.

THIS APPLICATION DOES NOT ENSURE A LICENSE WILL BE ISSUED.

First, check to see if the subject property (the property for which the Special Use is requested) is governed by any restrictive covenants. Restrictive Covenants are private restrictions on the use of land and are basically private agreements or contracts. They are usually recorded either on a deed, subdivision plat, or as an addendum to a subdivision plat. Restrictive Covenants are legally binding upon all property owners referenced on the deed or subdivision plat, including subsequent owners, for the time period as established on the deed or plat.

Since they are private agreements or contracts and Troup County is not a party to the covenant, only the parties subject to the covenants may enforce them. Troup County cannot enforce private covenants. In order to enforce covenants, affected persons will need to file a civil action in Superior Court. A lawyer should be contacted to assist with the filing. If the requested Non-Conforming Use and/or Structure violates your property covenants, you might become the focus of a civil action. A Special Use approval is not authorization to violate covenants and will not protect you in a lawsuit or civil action brought by your Property Owners Association, land lord, or property manager.

For information about obtaining a copy of subdivision covenants, please contact your Home Owners' Association or the Deeds & Record's Office of the Clerk of Superior Court located at the Troup County Government Services Center between the hours of 8:00am and 5:00pm, Monday through Friday, except holidays.

Troup County Code of Ordinances

5.7 - Rural and Agritourism Development Standards and Procedures.

The purpose of these standards is to allow agritourism uses in Troup County while maintaining the rural character and preserving farmland of the area and protecting the health, safety and welfare of the citizens. Agritourism presents a unique opportunity to combine aspects of tourism and agriculture to provide a number of financial, educational and social benefits to tourists, producers and communities. Agritourism gives producers an opportunity to generate additional income and an avenue for direct marketing to consumers. It enhances the tourism industry by increasing the volume of visitors to an area and the length of their stay. Agritourism also provides communities with the potential to increase their local tax bases and new employment opportunities. In addition, agritourism provides educational opportunities to the public, helps preserve agricultural lands and allows the development of businesses that cannot later be outsourced to other countries.

Allowing agritourism uses on parcels with working farms in Troup County provides:

- Enhancement of the economic viability of the farm and provides on-site employment opportunities;
- Generates additional income and/or off season income for the farmer;
- Interaction and education of local citizens and visitors about the importance of farming in Troup County;
- Increased awareness of local agricultural products; and
- Develops a new consumer market.

5.7-1. Definitions. For the purposes of this ordinance, certain terms and words are hereby defined. Words used in the present tense include the future, the singular number includes the plural and the plural the singular, the word may is permissive and the word shall is mandatory. Words and phrases not defined in this section, but defined in other sections of the ordinance, shall be given the meaning set forth in that section. All other words and phrases shall be given the meaning as defined in Section 1-4, Chapter 1, and the Code of Troup County, Georgia:

Agritourism is defined as the activities conducted on a working farm and offered to the public or to invited groups for the purpose of recreation, education and/or active involvement in the farm operation. These activities link agricultural production and/or processing with tourism in order to attract visitors onto a farm, ranch, or other agricultural business for the purposes of entertaining and/or educating the visitors and generating supplemental income for the farm or ranch owner. Agritourism activities are linked directly to the primary agricultural use of the property and any recreation, education or active involvement in the farm operation is secondary and shall constitute only a percentage of the total working farm.

Agribusiness. The businesses collectively associated with the production, processing, and distribution of agricultural products.

Christmas Tree Farm/cut your own. A working farm that grows various types of trees used in celebrating Christmas where sales are made directly to the public and where the customers cut their own trees.

Dinner on the Farm. A working farm (usually organic farm products) where meals are prepared for members of the general public from products of the working farm.

Educational Demonstrations. Demonstrations that teach the ability to create a product where raw materials are grown from a working farm.

Facility—Small Scale. Agritourism facility or use that poses minimal or small impact to surrounding farms and/or residential properties.

Facility—Large Scale. Agritourism facility or use that may pose an adverse impact to surrounding farms and/or residential properties through noise, light, traffic congestion.

Farmer's Market. A farmers market (a.k.a. greenmarket) is a place where a group (more than five) of farmers sells their products directly to consumers. Ultra-fresh produce, pastured meat and eggs, artisan cheeses, hand-harvested honey, and other fresh, small-batch foodstuffs are the hallmark (and benchmark) of the best farmers markets. They serve not just as a place for farmers to get the best price and consumers to get the best products, but as venues for producers and consumers of food to come together, forge relationships, and exchange information. Farmers markets are subject to all state health regulations and any other requirements from the state regarding the sale of food and produce.

Farm Retail Sales. A working farm where products produced on the farm are sold directly to the public.

Farm Tours. Tours where members of the public are shown working farm operations and teaches the attendees about farm processes.

Farm, working. Any operation that sells at least one thousand dollars of agricultural commodities or that would have sold that amount of produce under normal circumstances. Working farms are also defined as those that have a valid farm number issued by the Farm Service Agency.

Roadside Markets. A structure where five or less farmers on working farms get together and sell produce or other farm products directly to the general public. Roadside markets are different than roadside stands in that roadside markets are a group of farmers rather than just the owner of the property where the structure is located.

Roadside Stands. A structure built on a working farm where the owner sells fresh produce or other farm products directly to the general public. Roadside stands differ from farm markets in that farm markets may utilize products from another farm to sell at the roadside structure.

Rural Character refers to the patterns of land use and development established by a county in its comprehensive plan:

- In which open space, the natural landscape, and vegetation predominate over the built environment;
- That fosters traditional rural lifestyles, rural-based economies, and opportunities to both live and work in rural areas;
- That provides visual landscapes that are traditionally found in rural areas and communities;
- That is compatible with the use of the land by wildlife and for fish and wildlife habitat;
- That reduces the inappropriate conversion of undeveloped land into sprawling residential or commercial development;
- That generally do not require the extension of urban governmental services; and
- That is consistent with the protection of natural surface water flows and ground water and surface water recharge and discharge areas.

Rural Tourism. Tourism enterprises that do not necessarily occur on a farm or ranch or at an agricultural plant and rural tourism does not generate supplemental income for an agricultural enterprise but provides an additional income for the property owner.

Special Events, Private. A use or facility where events may have an impact to surrounding farms and residential property owners but has a definite number of attendees and does not pose an adverse impact to rural character. Private special events usually are of short duration (part of one day).

Special Events, Public. A use or facility where events may have attendance that could cause excessive traffic or overburden public safety personnel. Special events that are open to the public may pose an adverse impact to rural character and therefore must adhere to the Special Events Ordinance of Troup County. These types of uses or facilities while not used every day will be open for longer periods of time than private special events. Examples include concerts, conferences, meetings, fund raisers, etc.

Special Use Permit. A permit that allows a large scale use or facility to operate in unincorporated Troup County. This permit is issued by the Building, Zoning and Planning Department once approved by the Board of Commissioners.

Troup County Board of Zoning Appeals/Planning Board. Appointed members that make certain decisions as prescribed in the Troup County Zoning Ordinance.

Troup County Board of Commissioners. The governing authority of Troup County, Georgia.

U-Pick Operations. A working farm where the general public is invited to come and pick its own fresh fruits or vegetables.

Urban Services. Public water and/or public sewer. Other services may be defined as services that are normal and usual in a municipality or urban center. These services could include but are not limited to cable, high-speed internet, cellphone service, major highways, proximity to shopping, mass transit and schools.

Winery. A working farm where grapes are grown and wine is produced for commercial sales in other venues.

5.7-2 Procedures. Agritourism uses and facilities are separated into three categories. Those categories are: 1) minimum 2) small scale; 3) large scale. Minimum and small scale agritourism uses and facilities may be approved administratively by the County Planner and/or Zoning Administrator and County Engineer upon finding that the facility or use meets the following conditions and any other standards in this section and other sections as may be referenced in this section. Large scale agritourism uses and facilities are approved by the Troup County Board of Commissioners. All agritourism uses or facilities shall be in compliance with all state regulations as required for a particular use. Tax certificates shall be applied for, when necessary, prior to submission of a business license.

5.7-3 Business License. All agritourism operations are required to have a business license. The application for a business license is filled out and submitted to the Building Inspection and Zoning Department with the required fee as posted in the Building and Zoning Department. Business license applications will be reviewed by the County Planner, Zoning Administrator and County Engineer (if necessary) to determine whether the proposed use or facility is minimal, small or large scale activity.

5.7-4 Exemptions to Business License Requirement. The requirement for a business license is for agritourism enterprises. Normal and usual farming activities are not required to obtain a business license. These activities include but are not limited to:

- a. Selling produce grown on same farm (roadside stand, farmer's market, etc.);
- b. Cattle farming;
- c. Hay sold from farm where hay was grown; and
- d. Raising livestock associated with farming.

5.7-5 Conservation Use. Any property that wishes to start an agritourism business and has property in Conservation Use should check with the Troup County Property Appraisal Office prior to obtaining a business license. The Property Appraisal Office can let a property owner know if the proposed business will cause a violation of the conservation use covenant. If the Property Appraisal Office is unable to determine if the proposed use is a violation, then the property owner should get a determination from the Troup County Board of Assessors.

5.7-6 Standards for Administrative Approval of Agritourism Uses or Facilities.

- 1. The facility or use is approved subject to maintaining a working farm as defined in Section II of this document.
- 2. The use is compatible with existing agricultural uses in the area and does not adversely impact neighboring agricultural operations or unduly disrupt the rural character of the area.
- 3. The use or facility does not require the extension of urban services (sewer and/or water service).

4. No motorized off road vehicles shall be used for recreational purposes, but may be used as a part of normal farming functions.

5.7-7 Requirements for Agritourism Uses or Facilities. All agritourism uses or facilities are required to submit the following with the application of a business license:

1. **Site Plan Requirements.** All site plans are required to be drawn to scale. An aerial photograph with requirements drawn in may be used if that is the best way for applicant to show the requirements of the site plan. The following are required to be included on the site plan:
 - North Arrow;
 - Placement on property for all structures, including existing structures and residential dwellings;
 - Placement on parcel of all parking spaces to adequately serve the agritourism use or facility;
 - Placement and type of planting for any and all landscaping planned for the site;
 - Distance from property line to all structures and parking areas including handicapped accessible parking space or spaces;
 - Show the nearest county or state highway; and
 - Show setbacks from any proposed structures and the property line of the parcel where the proposed use or facility will be located.
2. **Floor Plan.** The floor plan should show all rooms in the facility, to scale. The floor plan shall include:
 - The size of each room;
 - Location of handicapped accessible rest rooms;
 - Location of handicapped access to building;
 - Layout of all rooms in the facility; and
 - Location of any kitchen facilities in the structure.
3. **Narrative Requirements.** This required narrative should answer the following questions in detail:
 - What is the proposed use for the property?
 - How is the property zoned now?
 - What is the zoning of adjacent property owners?
 - What is the nearest county or state highway?
 - Explain in detail why you want to have this agritourism use or facility and how does it promote education of the public on farming or increase economic development in Troup County?
 - How many acres of land do you propose to use in this agritourism use or facility?
 - How will this use of facility protect and preserve rural character of Troup County?
 - Do you need a tax certificate to engage in this business?
 - What steps do you plan to take to ensure that you do not adversely impact neighboring farms or residents?
 - If this narrative is being written for a Rural Tourism use please answer the following in addition to the questions listed in Narrative Requirements:
 - How is this use or facility going to promote farming and/or tourism?
 - What is the economic value to the community of this use or facility?
 - How does this use or facility fit in a rural setting?

5.7-8. Minimum Impact Agritourism Uses or Facilities. These are uses or facilities that pose minimal impact to surrounding properties and farms. They may be administratively approved with the approval of the County Planner and Zoning Administrator that the proposed use of facility meets the intent of this ordinance and poses no threat to health, safety or general welfare of the general public. Uses or Facilities that may be approved administratively under this definition include but are not limited to:

- Pick your own;
- On-Farm sales;

- Roadside Stand;
- Agricultural crafts/gifts sales from primary residence only;
- Fee Fishing/Hunting;
- Wildlife viewing and photography;
- Horseback riding for a fee;
- Wagon Rides;
- School Tours;
- Garden/Nursery Tours;
- Farm Technical Demonstrations and sales (canning, weaving, soap-making, etc.)
- Hunting/working dogs trials/training.

Other uses of facilities may be approved administratively by the County Planner and Zoning Administrator that meet the intent of this section and where it is determined that there will be minimal impact to surrounding properties and farms.

5.7-9. Small Scale Use or Facilities are uses or facilities that do not adversely impact surrounding farm uses but may involve an accessory building for storage or demonstration purposes. The application will be reviewed by the Troup County Planner, the Zoning Administrator and the Troup County Engineer based on the required site plan, floor plan of any proposed new or existing structures and a detailed narrative describing all activities planned for the parcel and any structures that will be built. The application for a business license may be approved administratively if the proposed use meets the following:

- a. The proposed use or facility meets all setbacks and buffering requirements; and
- b. The proposed use or facility is approved by the County Planner, Zoning Administrator and County Engineer as meeting all requirements as set forth in the zoning ordinance for that parcel and will not significantly increase traffic in the surrounding area.

Other proposed uses or facilities that are defined as small scale but are outside the scope of a and b above or require a variance of any kind will be required to get approval from the Board of Zoning Appeals/Planning Commission prior to issuance of a business license.

5.7-10. Permitted Small Scale Facilities or Uses. Small scale uses are allowed in any zoning district as long as the parcel meets the criteria of a working farm. Permitted small scale facilities or uses include but are not limited to:

- Bed and Breakfast Home (must meet the requirements in the zoning ordinance for bed and breakfast home);
- Clay Bird Shoot;
- School Tours;
- Garden and Nursery Tours;
- Historical Farm Museum or exhibit;
- Roadside Market.

Other similar facilities or uses may be considered for approval as determined by the zoning administrator.

5.7-11. Large Scale Facilities or Uses. These are facilities or uses that may impact the surrounding farms or property owners. These uses must be approved by the Board of Commissioners. Large scale facilities or uses may increase traffic, require health department approval for bathrooms, ADA requirements and food service or require public safety presence for traffic control. Large Scale facilities or Uses include but are not limited to:

- Farm vacations;
- School Tours that are more than one day;
- Winery Tastings or Tours;
- Historical Exhibit;

- Farm Technical Tours;
- Rodeos/Horseshows.

Other similar facilities or uses may be considered as determined by the Board of Commissioners.

5.7-12. Rural Tourism. Rural tourism is considered to be any of the agritourism facilities or uses, but is not secondary to an agricultural use. Rural Tourism is most often considered a special events venue, but may include other uses as well. Rural tourism uses may be approved by the Board of Zoning Appeals/Planning Commission or Board of Commissioners depending on the standards for the use. These uses are allowed on rural properties that no longer function as a working farm but may have tourism or income value. Rural Tourism Facilities and Uses shall comply with all of the following standards:

1. Must have a business license.
2. Must submit all requirements of agritourism facilities or uses (site plan, floor plan, narrative).
3. Any rural tourism use or facility that intends to stay open to the public (concerts, festivals, fairs, conferences, etc.) on a year round basis requires a special use permit as outlined in the Troup County Zoning Ordinance and must be approved by the Troup County Board of Commissioners.
4. Any rural tourism use or facility that meets the requirements of a small or large scale agritourism facility or use but does not have a primary agricultural use may be approved by the Troup County Board of Commissioners provided:
 - a. The facility or use conforms to a standard agricultural use (syrup making demonstrations, soap making, weaving demonstrations., historical exhibit, etc.); and
 - b. The facility or use does not diminish the rural character of the surrounding area or adversely impact neighboring farms or properties.
5. Any rural tourism venue that intends to be open for special occasions not open to the public such as family reunions, birthday parties, family reunions, etc. may be permitted as long as it meets the requirements of the Troup County Special Events Permit Ordinance.
6. Rural tourism uses will be reviewed by the County Planner, Zoning Administrator and County Engineer to determine the impact of the rural tourism and direct the applicant to which path for approval the owner must follow.
7. Under no circumstances will a rural tourism use be approved where the applicant is leasing the property from an absentee owner.

Rural tourism uses or facilities may be determined to be small or large scale. Small scale uses or facilities may be approved by the Board of Zoning Appeals/Planning Commission. Large scale uses or facilities must be approved by the Board of Commissioners after a review and recommendation from the County Planner and Zoning Administrator.

5.7-13. Variances. Variances may be applied for as necessary under the provisions for variances as stated in Article 16, Section 16.5, of 6/27/2011 [of] the Troup County Zoning Ordinance.
